Details of amenities

The Cottage is in a wonderful location, with 360-degree panoramic views and no visual disturbance or noise. Nevertheless you are not totally isolated, the adjacent properties are inhabited and the next hundred, Pomarance, is only a few minutes away by car. Wonderful walks and trekking tours can be undertaken on foot; there is also a small river a short distance away, with bends that also allow for a refreshing swim.

The garden, over 11,000sqm, is divided into an upper part just to serve the house, where it is also possible to build a swimming pool, and a part below, left to olive grove and orchard.

The large warehouses below the sun terrace offer over 120sqm of surface area that with a few interventions could also be transformed according to one's own needs.

The heating, currently operated through a fireplace, wood stove and electric, however, provides for the presence of an LPG boiler with underground storage, currently not used.

The stone facades have all been sandblasted with great care and finished in the warm colors of tuff stone.
